

# THE NOVEMBER BAKERY

**The November Bakery is a locally founded establishment that has provided high quality desserts since 2005. With a combination of innovative ideas and the best ingredients, the November Bakery continuously challenges itself to set the standard for what dessert in Kuwait should be.**

Inspired by the best dessert kitchens and bakeries all over the world, November maintains excellence and aesthetic appeal in the production and display of its compelling desserts. In fact, The November Bakery was first in Kuwait to create custom dessert buffets

for special events, where the decoration of desserts and their presentation are specially designed to enhance the spirit of the moment; the presentation almost makes you want to leave the desserts untouched, for you would not want to spoil their beauty, but then after one bite you are taken to a special place... November brings this sensibility to everything it makes. The November Bakery is also the place to go for customized special occasion cakes and giveaways that are designed by very experienced and knowledgeable staff under the stringent November standards.

A key to The November Bakery's success is

its attention to detail. Everything produced by its kitchens are thoroughly inspected for quality and adherence to its extremely high standards. From bite-sized nibbles to large cakes, you can be sure that every bite will fail to disappoint. The quest for new ingredients and flavors ensures that customers will be continually surprised and delighted by every bite.
